

Ideas for future projects between The GEB and its partners

The following projects had been announced :

- **Poland :**

The Polish organisation announced the will to set up a European Program for physiotherapists. The aim of the project would be to organize internships or training courses for physiotherapists. It would be a part of the Erasmus program, and maybe also of the Leonardo da Vinci one. However, this project faces difficulties as the physiotherapeutic studies are completely different in every countries and the national insurances can be a problem.

The Polish organisation also announced a project relating to breast cancer, but it has yet to be developed.

- **United-Kingdom**

The UK organisation had the idea to develop a translation software regarding specific situations and food.

They also thought about another mobility project with the Portugal (see Portugal's project).

- **Germany – FLS International**

The FLS International reported that, concerning the Mobility Project, there were difficulties with the length of the internship: 2 or 4 weeks are not enough for an internship, and the implication of the students. They, therefore thought about a vocational training, which would be another concept, for 4 weeks, and with the setting up of a learning agreement.

- **Germany - Gesellschaft für Europa-Bildung**

The Gesellschaft für Europa-Bildung announced the repetition of the cultural project Arte Factum because of its big success, and a new project : Parentes Mobilitas. This last project concerns adults with children that are excluded from the Mobility Project. Indeed, the financial supports for adult mobility don't consider the additional costs for parents regarding their children. A specific program for interns with children should therefore be set up, and needs to include the supervision of the children.

- **Italy**

The Italian organisation announced a new project with Germany, about mobility, concerning engineering schools, and which would last 14 weeks, as well as another project, with the Portugal, for young farmers.

- **France**

The French organisation talked about a new school project, concerning students, and in association with the United Kingdom. A meeting will be held in April.

They also announced a new mobility project to send people to nearby countries.

- **Portugal**

A new Comenius project for European teachers between the Portugal and the United Kingdom was announced. It is called CO³.

- **Spain**

The Spanish organisation announced 3 new projects of IVT with Italy, the United Kingdom, and Germany.
